first published in 1996 this encyclopedia is unique in several ways as the first international reference source on publishing it is a pioneering venture our aim is to provide comprehensive discussion and analysis of key subjects relating to books and publishing worldwide the sixty four essays included here feature not only factual and statistical information about the topic but also analysis and evaluation of those facts and figures the chapters are significantly more comprehensive than those typically found in an encyclopedia

an annotated guide to selection aids accompanies descriptive lists of american and canadian publishers and distributors of paperback books for young people

pre and post unification culture includes austria and switzerland annotated suggestions for further reading english and german language works

covering the 1960s and 1970s this volume explores new ways of investigating comparing and interpreting the different domains of design culture across the nordic countries challenging the traditional narrative this volume argues that the roots of the most prominent features of nordic design s contemporary significance are not to be found amongst the objects for the home collectively branded as scandinavian design to great acclaim in the 1950s but in the discourses institutions and practices formed in the aftermath of that oft told success story during the turbulent period between 1960 and 1980 this is achieved by employing multidisciplinary approaches to connect the domains of industrial production marketing consumption public institutions design educations trade journals as well as public debates and civic initiatives forming a design culture this book makes a significant contribution to current international agendas of historiographical critique focusing on transnational relations and the deconstruction of national design histories this book will be of interest to scholars in design design history and scandinavian studies the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives 4 0 license

this book addresses the shifting status of the humanities through a national case study spanning two centuries the societal function of the humanities is considered from the flexible perspective of knowledge politics in order to historicize notions of impact and intellectual organization that tend to be taken for granted the focus on modern sweden enables an extended but still empirically coherent historical analysis inviting critical comparisons with the growing literature on the history of the humanities from around the world in the swedish case the humanities were instrumental to the construction of modern societal institutions political movements and professional education in the second half of the 19th century while in the 20th century the sense of future making shifted towards science and medicine and later technology and economy the very rationale of the humanities was thus put under pressure as their social contract required novel negotiations their state and connections to society were nevertheless of a complex and ambiguous character as is demonstrated by this volume whose contributions explore the many faces and places of the modern humanities
