the relevance of language acquisition to the day to day concerns of teaching and learning languages

the eleven chapters of vocabulary in a second language are written by the world's leading researchers in the field of vocabulary studies in second language acquisition each chapter presents experimental research leading to new conclusions about and insights into the selection the learning and teaching or the testing of vocabulary knowledge in foreign languages this book is intended as an up to date overview of the important domain of the lexicon for researchers in the field of second language acquisition teacher trainers and professional teachers of second or foreign languages

Spolsky here examines the conditions under which languages are learned and how learning related to teaching his theory set out in the form of a preference model emphasizes the need to be precise and clear on the nature of the goals and outcomes of learning and to recognize the complexity of the concept of knowing a second language

this is a cutting edge yet accessible introduction to second language acquisition it covers concepts themes goals research problems methods theories and new directions

on the monitor theory of adult second language acquisition

this book is a thorough revision of the highly successful text first published in 1994 the authors retain the multidisciplinary approach that presents research from linguistics sociology psychology and education in a format designed for use in an introductory course for undergraduate or graduate students the research is updated throughout and there are new sections and chapters in this second edition as well new chapters cover child language acquisition first and second universal grammar and instructed language learning new sections address issues such as what data analysis doesn't show replication of research findings interlanguage transfer multilingual acquisition and transfer the aspect hypothesis general nativism connectionist approaches and implicit explicit knowledge major updates include nonlanguage influences and the lexicon the workbook second language learning data analysis second edition makes an ideal accompaniment to the text

now in its third edition introduction to instructed second language acquisition continues to present a structured comprehensive introduction to SLA's theoretical empirical and pedagogical themes as well as a range of key issues in research and practice designed for ease of teaching the text includes separate sections for empirical evidence and pedagogical implications in order to demonstrate how research findings can successfully be implemented in the classroom activities and discussion questions as well as points for reflection facilitate discursive learning and critical thinking this third edition has been thoroughly updated to reflect the latest developments in the field along with new chapters on psychological cognitive and social individual differences respectively this is an essential core text for courses on SLA and recommended reading for classes in language acquisition more broadly

the present volume examines the relationship between second language practice and what is known about the process of second language acquisition summarising the current state of second language acquisition theory drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have the author concludes that a solution to language teaching lies not so much in expensive equipment exotic new methods or sophisticated language analysis but rather in the full utilisation of the most important resources native speakers of the language in real communication

English language teaching (ELT) especially English as a second language (ESL) and English as a foreign language (EFL) has been witnessing unprecedented changes in curriculum teaching methodology and the application of learning theories this has created a demand for teachers who can teach English to learners of varied cultural socio-economic and psychological backgrounds the book in its second edition continues to discuss the modern trends innovations as well as the difficulties and challenges in teaching and learning ESL in a non-native context the book with contributions from many experts each one specializing in a particular field from countries such as UK USA Australia New Zealand India Nigeria Sri Lanka China and

japan provides new methods strategies and application oriented solutions to overcome the problems in a practical way the book deals with all topics pertinent to english as a second language or english for the non native speakers and these are further reinforced by a large number of examples and quotations from different sources the new edition comes along with thoroughly improvised chapters on narrative inquiry for teacher development chapter 13 and mass media language attitudes and language interaction phenomena chapter 23 to provide an insight on the innovative approaches in teacher training and in classrooms and new approaches and changing language dimensions in the world of media and in general what distinguishes the text is its focus on modern innovations and use of technology in elt clt communicative language teaching postgraduate students of english teachers teacher trainees b ed m a education m ed and teacher educators who are concerned with teaching english as a second language esl should find this book immensely helpful a

this extremely up to date book speech production and second language acquisition is the first volume in the exciting new series cognitive science and second language acquisition this new volume provides a thorough overview of the field and proposes a new integrative model of how l2 speech is produced the study of speech production is its own subfield within cognitive science one of the aims of this new book as is true of the series is to make cognitive science theory accessible to second language acquisition speech production and second language acquisition examines how research on second language and bilingual speech production can be grounded in l1 research conducted in cognitive science and in psycholinguistics highlighted is a coherent and straightforward introduction to the bilingual lexicon and its role in spoken language performance like the rest of the series speech production and second language acquisition is tutorial in style intended as a supplementary textbook for undergraduates and graduate students in programs of cognitive science second language acquisition applied linguistics and language pedagogy

this book provides an alternative to the grammar debate in second language acquisition theory and teaching accepting that language acquisition is at least partially input dependent the author asks how grammatical form is processed in the input by second language learners and is it possible to assist this in ways that help the learner to create richer grammatical intake he answers these questions and explains why traditional paradigms are not psycholinguistically motivated drawing on research from both first and second language acquisition he outlines a model for input processing in second language acquisition that helps to account for how learners construct grammatical systems he then uses this model to motivate processing instruction a type of grammar instruction in which learners are engaged in making form meaning connections during particular input activities

learning to learn in a second language

translation can help improve foreign language teaching and learning this study shows how in an increasingly globalised world and in an increasingly multilingual europe translation plays an important role significant signs of a new revival of translation in language teaching have become visible as shown by recent literature on applied linguistics this book contributes to this movement embracing both a theoretical and an empirical purpose by integrating viewpoints from applied linguistics translation studies and second language acquisition in an attempt to show how the use of translation in foreign language classes can help enhance and further improve reading writing speaking and listening skills this work calls for a re evaluation and a rehabilitation of the translation activities in the foreign language classes

tasks in second language learning aims to re centre discussion of the ways in which language learning tasks can help offer a holistic approach to language learning and to explore the research implications it relates the broad educational and social science rationale for the use of tasks to the principles and practices of their classroom use the authors provide a balanced review of research as a basis for exploring a broader research agenda throughout the book offers telling illustration of the contributions of a range of specialists in research teaching methodology and materials development and of the authors own argument

strategies in learning and using a second language examines what it takes to achieve long term success in languages beyond the first language distinguishing language learning from language use strategies andrew d cohen disentangles a morass of terminology to help the reader see what language strategies are and how they can enhance performance particular areas of research examined in the book include links between the use of task specific strategies and language performance how multilinguals verbalise their thoughts during language learning and use strategies that learners use in test taking contexts in this fully revised and substantially rewritten second edition every chapter has been reworked with material either updated or replaced entirely new material has also been developed based on examples of specific strategies supplied by actual learners mostly drawn from a website featuring these strategies in the learning of spanish grammar strategies in learning and using a second language will be an invaluable resource for language teachers and researchers as well as for administrators of second language programmes and for students of applied linguistics

specifically targeted towards the needs of a second language research audience second language research methodology and design addresses basic issues related to research design providing step by step instructions for how to carry out studies this up to date text includes chapters that cover identifying research problems and questions selecting elicitation measures dealing with ethical issues related to data gathering validity and reliability in research research in second and foreign language classroom contexts data description and coding and data analysis also included is a chapter on the much needed and rarely addressed topic of writing up sla research giving concrete suggestions about preparing for publication principles of both qualitative and quantitative research are discussed in the context of design issues throughout the book examples from applied linguistics second language acquisition and tesol are provided helpful discussion and data based skill building exercises at the end of each chapter promote better understanding of the principles discussed a glossary outlines the key terms in second language research second language research methodology and design is an ideal textbook for introductory and advanced classes in second language research methods as well as classes in related areas for example tesol research methods

there is increasingly wide agreement among teachers researchers inspectors advisers and policy makers that both teaching and research will benefit from being brought closer together but how can this be achieved hard pressed practioners cannot be expected to review a constant flow of conference papers journals and other publications even if such items were accessibly written this unique book synthesizes relevant research findings for the professional practioner and highlights their implications for the quality of teaching and learning whether you are a teacher looking to improve your practice or a researcher looking for a concise overview of the literature this book will prove a valuable acquisition
